2. Target Audience

Audience	Arabic
People with Disabilities	الأشخاص ذوو الإعاقة
Families & Caregivers	الأسر ومقدمو الرعاية
Doctors & Specialists	الأطباء والمتخصصون
Specialized Service Providers	مقدمو الخدمات المتخصصة (الإخصائين)
Clinics & Rehabilitation Centers	العيادات ومراكز التأهيل
Clinic Staff & Administrators	موظفو وإداريو العيادات
Platform Administrators	مسؤولو إدارة المنصة
Partners & Advertisers	الشركاء والمعلنون

Primary Audience : People with Disabilities & Their Families

3. How Might We

English	العربية
How might we simplify the care journey for people with disabilities and their families?	كيف يمكننا تبسيط رحلة الرعاية للأشخاص ذوي الإعاقة وأسرهم؟
How might we help families find the right specialized services easily?	كيف يمكننا مساعدة الأسر في الوصول للخدمات المتخصصة المناسبة بسهولة؟
How might we connect families with trusted and verified providers?	كيف يمكننا ربط الأسر بمقدمي خدمات موثوقين ومعتمدين؟
How might we make booking and managing appointments easier?	كيف يمكننا تسهيل حجز وإدارة المواعيد؟
How might we keep the entire care journey connected in one place?	كيف يمكننا جمع رحلة الرعاية كاملة في مكان واحد؟
How might we make medical information easier to access and manage securely?	كيف يمكننا تسهيل الوصول إلى المعلومات الطبية وإدارتها بأمان؟
How might we empower families to manage and follow their loved one's care?	كيف يمكننا تمكين الأسر من إدارة ومتابعة رحلة رعاية ذويهم؟
How might we make SANAD accessible and easy to use for everyone?	كيف يمكننا تسهيل الاستخدام ومتاحة للجميع؟

How might we help families connect with others facing similar challenges through supportive communities and group events?	كيف يمكننا مساعدة الأسر على التواصل مع أسر أخرى تواجه تحديات مشابهة، من خلال مجتمعات داعمة وفعاليات جماعية؟
How might we use AI to provide families with a more personalized experience, relevant knowledge, and greater awareness throughout their care journey?	كيف يمكننا استخدام الذكاء الاصطناعي لتقديم تجربة أكثر تخصيصًا للأسر، وإتاحة المعرفة المناسبة، وتعزيز وعيهم خلال رحلة الرعاية؟
How might we integrate relevant advertisements without overwhelming users or interrupting their care journey?	كيف يمكننا دمج الإعلانات ذات الصلة دون إرباك المستخدمين أو التأثير سلبًا على رحلة الرعاية؟

4. Problem Statement

Families of people with disabilities often face a complex and fragmented care journey, making it difficult to find the right specialized services, trusted providers, manage appointments, and keep their care information organized in one place .

5. Idea / Solution

SANAD is a connected digital platform that brings specialized care services and trusted providers together in one place, helping people with disabilities and their families easily discover, book, manage, and follow their care journey.

6. Features List

Feature	Arabic
User Registration & Login	التسجيل وتسجيل الدخول
Patient & Family Profiles	ملفات المرضى وأفراد الأسرة
Provider & Clinic Profiles	ملفات مقدمي الخدمات والعيادات
Provider Verification	التحقق من مقدمي الخدمات
Service & Specialty Search	البحث عن الخدمات والتخصصات
Smart Matching	المطابقة الذكية
Advanced Filters	فلاتر البحث المتقدمة
Appointment Booking	حجز المواعيد
Reschedule & Cancellation	إعادة جدولة وإلغاء المواعيد
Notifications & Reminders	الإشعارات والتذكيرات
Medical Care Timeline	الخط الزمني لرحلة الرعاية

Medical Records & Documents	السجلات والتقارير الطبية
Prescriptions Management	إدارة الوصفات الطبية
Laboratory & Imaging Results	نتائج التحاليل والأشعة
Family Access & Consent	صلاحيات وصول الأسرة والموافقة
Online Payments	الدفع الإلكتروني
Ratings & Reviews	التقييمات والمراجعات
Patient Dashboard	لوحة تحكم المريض والأسرة
Doctor Dashboard	لوحة تحكم الطبيب
Clinic Dashboard	لوحة تحكم العيادة
Admin Dashboard	لوحة تحكم الإدارة
Advertising & Sponsored Providers	الإعلانات ومقدمو الخدمات المميزون
Accessibility Support	دعم إمكانية الوصول لذوي الإعاقة
Privacy & Security Controls	الخصوصية وأمان البيانات
AI-Powered Analysis & Reports	التحليلات والتقارير المدعومة بالذكاء الاصطناعي
AI Chatbot	روبوت محادثة ذكي
Ask SANAD	مساعد ذكي يتيح الوصول إلى المعلومات المترابطة عبر مصادر بيانات المنصة
Family & Patient Group Chat	محادثات جماعية للأسر والمرضى
Community Groups by Case / Category	مجتمعات حسب الحالة أو الفئة
Social & Educational Events	فعاليات اجتماعية وتوعوية
Event Management	إدارة الفعاليات والمشاركة فيها

7. User Stories

As a Patient, I want to create an account so that I can manage my care journey.

كمريض، أريد إنشاء حساب حتى أتمكن من إدارة رحلة الرعاية الخاصة بي.

As a Family Member, I want to manage dependent profiles so that I can follow their care journey.

كفرد من الأسرة، أريد إدارة ملفات أفراد الأسرة حتى أتمكن من متابعة رحلة رعايتهم.

As a Patient, I want to search for specialized services so that I can find the right support.

كمريض، أريد البحث عن الخدمات المتخصصة حتى أتمكن من الوصول إلى الدعم المناسب.

As a Patient, I want to compare providers so that I can choose a suitable one based on relevant information.

كمريض، أريد مقارنة مقدمي الخدمات حتى أتمكن من اختيار الأنسب بناءً على المعلومات المتاحة.

As a Patient, I want to view verified provider profiles so that I can make informed decisions.

كمريض، أريد الاطلاع على ملفات مقدمي الخدمات الموثوقين حتى أتمكن من اتخاذ قرار مناسب.

As a Patient, I want to book an appointment online so that I can access care easily.

كمريض، أريد حجز موعد إلكترونيًا حتى أتمكن من الوصول إلى الخدمة بسهولة.

As a Patient, I want to reschedule or cancel my appointment so that I can manage my schedule.

كمريض، أريد إعادة جدولة الموعد أو إلغاءه حتى أتمكن من إدارة مواعيدي.

As a Patient, I want to access my medical records and reports so that I can keep my care information organized.

كمريض، أريد الوصول إلى سجلاتي وتقاريري الطبية حتى أتمكن من تنظيم معلومات الرعاية الخاصة بي.

As a Patient, I want to view my care timeline so that I can follow my healthcare journey.

كمريض، أريد عرض الخط الزمني لرحلة الرعاية حتى أتمكن من متابعة تطورها.

As a Patient, I want to manage family access permissions so that I can control who can access my information.

كمريض، أريد إدارة صلاحيات وصول أفراد الأسرة حتى أتحكم في من يمكنه الوصول إلى معلوماتي.

As a Doctor, I want to manage my profile and availability so that patients can find and book with me.

كطبيب، أريد إدارة ملفي ومواعيدي المتاحة حتى يتمكن المرضى من العثور عليّ وحجز موعد معي.

As a Doctor, I want to document patient encounters and prescriptions so that their care history stays updated.

كطبيب، أريد تسجيل الزيارات والوصفات الطبية حتى تظل رحلة الرعاية محدثة.

As a Clinic, I want to manage doctors, schedules, and appointments so that I can organize clinic operations.

كعيادة، أريد إدارة الأطباء والمواعيد والجداول حتى أتمكن من تنظيم العمليات اليومية.

As an Admin, I want to verify providers so that only verified providers are presented as verified.

كمدير للمنصة، أريد التحقق من مقدمي الخدمات حتى يظهر الموثقون فقط.

As a Patient, I want to review a provider after a completed appointment so that I can share my experience.

كمريض، أريد تقييم مقدم الخدمة بعد إتمام الموعد حتى أتمكن من مشاركة تجربتي.

8. Stakeholder Interviews

1. ما أكبر التحديات التي تواجهها الأسرة أثناء رحلة الرعاية؟
2. كيف تبحث حاليًا عن مقدم الخدمة المناسب؟
3. ما أهم المعلومات التي تحتاجها قبل اختيار مقدم الخدمة؟
4. ما أكثر الصعوبات في حجز ومتابعة المواعيد؟
5. كيف يتم حاليًا حفظ ومتابعة التقارير والمعلومات الطبية؟
6. ما أهم الخصائص التي تتوقع وجودها فيSANAD ؟
7. ما الذي يجعلك تثق في مقدم خدمة أو منصة رعاية؟
8. ما المعلومات أو الإجراءات التي يجب أن تكون متاحة بسهولة من الـDashboard ؟
9. ما الصعوبات التي قد يواجهها الأشخاص ذوو الإعاقة أثناء استخدام المنصة؟
10. هل تهتم بالانضمام إلى مجموعات تضم أسرًا أو مرضى يواجهون تحديات مشابهة لتبادل الخبرات والتعلم من بعضهم البعض؟
11. هل تهتم بحضور فعاليات اجتماعية أو توعوية يوصي بها المتخصصون؟
12. هل سيكون المساعد الذكي الذي يساعدك في العثور على المعلومات المناسبة وفهم رحلة الرعاية مفيدًا لك؟ وما المهام التي تتوقع أن يساعدك فيها؟
13. ما رأيك في ظهور خدمات أو توصيات إعلانية ذات صلة أثناء استخدام سند؟ وأين تراها مفيدة أو مشتتة؟

9. User Personas

9.1 The Coordinating Parent

Samya Hassan | 38 years old · Cairo — Nasr City | Primary school teacher — part-time

A parent looking for reliable specialized care and support for a family member, while trying to keep appointments, providers, and care information organized.

Persona narrative: Noha is a mother of a 9-year-old girl with speech delay and learning difficulties. She spends significant time researching specialists, coordinating between multiple service providers, and trying to make sense of medical reports on her own. Every new provider means starting from scratch.

Goals	Pain Points	Behaviors
Find the right specialized service; Find trusted providers; Book appointments easily; Keep care information organized; Follow the care journey	Difficulty finding the right provider; Information is scattered across different places; Managing multiple appointments is difficult; Uncertainty about provider reliability; Following the overall care journey can be complicated	Searches online for specialized services; Compares available providers; Checks provider information and reviews; Manages appointments for family members; Needs quick access to important care information

Tech comfort level: shown in the original persona graphic. Devices: Mobile — primary; Laptop at work. Emotional state: Anxious + Hopeful.

In their own words: "I want to make sure my family member gets the right care without having to navigate everything alone."

Needs: Trusted & verified providers; Simple search and filtering; Family/dependent management; Easy appointment booking; Centralized medical information; Clear and accessible interface.

9.2 The Specialized Doctor

Dr. Ahmed Hassan | 42 years old • Cairo — New Cairo | Specialized Doctor • 12+ years of experience

A specialized doctor looking to reach the right patients, manage appointments efficiently, and keep patient care information organized.

Dr. Ahmed is a specialized doctor who manages multiple patients and appointments. He needs an easy way to maintain his professional profile, manage his availability, and access relevant patient information while providing care.

Goals	Pain Points	Behaviors
Reach the right patients; Manage appointments easily; Keep professional profile updated; Access relevant patient information; Document patient care efficiently	Managing multiple appointments is time-consuming; Patient information may be scattered across different systems; Updating professional information can be difficult; Limited visibility of patient history before appointments	Manages multiple appointments daily; Reviews patient information before consultations; Updates professional information when needed; Documents visits and prescriptions; Uses digital tools to manage his practice

Devices: Laptop — primary; Mobile — secondary. Attitude: Practical • Efficiency-focused.

In their own words: "I want to focus on providing the right care while having an easier way to manage my patients and appointments."

Needs: Easy appointment management; Clear patient information; Professional profile management; Organized medical records; Simple documentation; Notifications & reminders.

9.3 The Clinic Administrator

Mariam Hassan | 36 years old • Cairo — New Cairo | Clinic / Rehabilitation Center Admin • 8+ years of experience

A clinic administrator looking to manage the center's doctors, services, schedules, and appointments efficiently while providing a smooth experience for families.

Mariam manages the daily operations of a specialized clinic/rehabilitation center. She coordinates doctors and staff, manages services and schedules, and needs a clear system to keep appointments and clinic information organized.

Goals	Pain Points	Behaviors
Manage doctors and staff easily; Organize clinic schedules and availability; Manage appointments efficiently; Keep clinic and service information updated; Provide a smooth experience for families	Managing multiple doctors and schedules is time-consuming; Appointment coordination can become complicated; Clinic information may need to be updated in multiple places; Difficult to keep track of daily operations	Manages multiple doctors and staff; Reviews and organizes daily schedules; Monitors appointments and bookings; Updates clinic services and information; Uses digital tools to manage administrative tasks

Devices: Laptop — primary; Mobile — secondary. Attitude: Organized • Efficiency-focused.

In their own words: "I want one clear system to manage our doctors, appointments, and services without making the process complicated."

Needs: Easy doctor & staff management; Clear appointment scheduling; Service & clinic profile management; Organized availability; Notifications & reminders; Clear administrative dashboard.

10. Competitive Analysis

The comparison matrix in the supplied design compares the following platforms: Care on the Way, SpecialNeeds.org, Vezeeta, Thmar, and Altibbi. Features listed in the matrix:

- Service Search
- Specialized Services
- Provider Profiles
- Provider Verification
- Advanced Filters
- Appointment Booking
- Reviews & Ratings
- Family / Dependent Management
- Medical Records
- Care Timeline
- Accessibility Information
- Online Payment

The checkmarks and dashes in the original comparison table are represented visually in the source design. The table below preserves the feature categories without reassigning competitor marks.

Key Insight	English	العربية
01 — Fragmented Care	Most existing platforms focus on individual services such as doctor discovery, booking, or telemedicine rather than the complete care journey.	معظم المنصات تركز على خدمة أو خطوة واحدة، بدل ما تجمع رحلة الرعاية بالكامل.
02 — Limited Family Support	Family and dependent management is largely missing across existing solutions, despite families being key decision-makers and caregivers.	إدارة أفراد الأسرة ومتابعة رحلة الرعاية غير واضحة أو غير متوفرة بشكل كافٍ في معظم الحلول.

11. SWOT Analysis

Strengths	Weaknesses	Opportunities	Threats
Connected care journey; Family-centered; Specialized care; Verified providers	Complex ecosystem; Provider dependency; Privacy complexity; Accessibility complexity	Underserved care journey; Family empowerment; Smart matching; Regional expansion	Established competitors; Trust & adoption; Data privacy risks; Regulatory requirements

12. User Journeys

12.1 Parent / Caregiver Journey

Stage	Goal	Actions	Pain Points	SANAD Opportunity
1. Need	Understand what service her daughter needs	Identifies a care need	Unsure where to start	Guide her to the right service and provide relevant AI-powered guidance
2. Search	Find suitable specialists and supportive communities	Searches for specialists, services, and relevant family groups	Too many options; difficulty finding families with similar experiences	Simple search and filtering, relevant community groups, and personalized recommendations
3. Evaluate	Choose a trusted provider and relevant support	Compares profiles, reviews, availability, and relevant information	Information is scattered; uncertainty about provider reliability	Verified, comparable information and AI-powered knowledge support
4. Book	Book appointments and discover suitable events	Selects appointment date and time; explores relevant social and educational events	Booking can be complicated; difficulty discovering suitable events	Easy booking and access to relevant events without overwhelming the user
5. Attend	Receive the right care and benefit from shared experiences	Attends appointments; participates in suitable group activities and communicates with families facing similar challenges	Repeating information; limited opportunities to share experiences and learn from others	Keep relevant information accessible and enable supportive community interaction and specialist-recommended events
6. Follow Up	Keep the care journey organized and build confidence	Reviews records and next steps; accesses relevant knowledge; connects with the community and uses Ask SANAD for guidance	Records and follow-ups are difficult to track; uncertainty about next steps	Connected care timeline, AI-powered assistance through Ask SANAD, and trusted peer support throughout the journey

12.2 Doctor Journey

Stage	Goal	Actions	Pain Points	SANAD Opportunity
1. Join	Join the platform as a trusted specialist	Registers and submits professional details	Verification process may take time	Simple verification flow
2. Build Profile	Present professional information clearly	Adds specialty, experience, services & credentials	Keeping professional information updated	Clear professional profile
3. Manage Availability	Control schedule & availability	Sets available days and time slots	Managing changing availability	Easy schedule management
4. Manage Appointments	Manage upcoming appointments	Reviews, confirms, reschedules or manages bookings	Multiple appointments can become difficult to coordinate	Centralized appointment management
5. Provide Care	Access relevant patient information & document care	Reviews patient context and documents the encounter	Patient information may be scattered	Relevant patient context
6. Follow Up	Track patient care information	Reviews records, prescriptions, results & follow-up information	Documentation and follow-up can be time-consuming	Organized medical timeline

12.3 Administrator Journey

Stage	Goal	Actions	Pain Points	SANAD Opportunity
1. Access	Access the admin platform securely	Logs in securely and opens dashboard	Secure access can add friction	Secure but simple admin access
2. Verify	Verify providers and user information	Reviews provider credentials and verification requests	Large number of verification requests	Clear verification workflow
3. Manage	Manage platform activities	Manages users, roles, bookings, reviews and payments	Multiple operational areas	Centralized admin dashboard
4. Monitor	Monitor system and user activity	Checks activity, access logs and platform status	Difficult to track everything in real time	Clear monitoring & audit trails
5. Resolve	Handle issues and support requests	Investigates issues and supports users	Issues may require investigation across modules	Efficient issue resolution
6. Maintain	Keep the platform reliable and compliant	Updates configurations and monitors compliance	Maintaining privacy and compliance is complex	Strong privacy & access controls

13. Design System — Colors

Color group	Hex values
Blue palette	#D7E8FF · #C2DCFE · #72ADFE · #AC7281 · #012A61 · #011A3D
Cyan / teal palette	#D6F9FF · #71EBFE · #01AFCB · #01798C · #014651
Neutral palette	#212121 · #666666 · #8F8F8F · #CCCCCC · #FFFFFF
Status colors	#FC3A3A · #24C108

14. Typography

Font family: Tajawal

Style	Specifications
H1	80 px Bold / Regular; 72 px Bold / Regular; 56 px Bold / Regular; 40 px Bold / Regular
H2	32 px Bold / Regular; 24 px Bold / Regular; 20 px Bold / Regular
